

**When you wash your vehicle, use a bucket not hose.
Approximately, 400 ltrs of water is consumed if you wash a car with hose.**

**When you use washing machine,
Opt for 'Quick Wash' or 'Water Saving' option and run for full load**

Wash fruits/vegetables in a basin and not under running water tap.

If you have a dishwasher, run it only for a full load.

**If you are in the habit of bathing in tubs,
abstain from using tubs during summer,
rather, use one bucket for taking bath (25 ltrs)**

**Repair all leaky pipes & taps in the house.
10% of fresh water is consumed due to leaks.**

As you brush/shave – TURN OFF the tap, use a mug

Water your plants either in the morning or in the evening.
