International Day for Disaster Risk Reduction – October 13

The United Nations General Assembly has designated October 13th as the International Day for Disaster Risk Reduction to promote a global culture of disaster risk reduction. It is an opportunity to acknowledge the progress being made toward reducing disaster risk and losses in lives, livelihoods and health in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 adopted at the Third UN World Conference on Disaster Risk Reduction in Japan in March 2015.

The theme will be ***“it’s all about governance”*** which is closely linked with Target E of the Sendai Framework: Substantially increase the number of countries with national and local disaster risk reduction strategies by this year, 2020.

As we all know, we are going through a tough situation where the whole world is fighting against a pandemic. The same has struck down our country in a high magnitude. In this situation, observing a disaster risk reduction day is an important one.

About the program

Palakkad District Disaster Management Authority has organized a programme titled “KARUTHALINTE KATH” in connection with International day for disaster risk reduction which was observed on October 13th.

DDMA organized this event with the IAG team, for making Covid awareness among the people since the virus spreads highly across the state.

Due to the huge decrease in usage of postal systems, this event also aimed at sharing post cards consisting instructions regarding STS (Stay inside, Testing, Self care) of Covid alerts to our dear ones during this pandemic period.

As part of the first stage of the program IAG Volunteers delivered 1000 post cards to the people in different regions of the district and let them send letters to their dear ones.

In addition to this we would like to include Kudumbasree , NGOs, Social and cultural organisations etc to take part in this event so that the program might get a wide popularity across the district.

The program was inaugurated by Kumari D Dharmalasree, Assistant Collector Palakkad district by sending a post card. District Information Officer Priya K Unnikrishnan, Civil Station Post Office Head, Huzur Shirastadar Geetha KS and Disaster Management Division Superintendent T Krishnakumar were participated in the program.

Conclusion

Reducing the risk of a disaster is as important as surviving and preventing a disaster. These days must be celebrated in order to pass this message to the people. Through this, people can understand how to reduce the exposure to a disaster and how important it is.
