## PROJECT COMPLETION REPORT

### **1. SCHOOL SAFETY PROGRAMME – Introduction**

The state of Kerala experienced heavy rainfall between 1<sup>st</sup> June to 18<sup>th</sup> August 2018 which resulted in worst ever flood in its history of Kerala since 1924. The state received cumulative rainfall that was 42% in excess of the normal average. The torrential rain triggered several landslides and forced the release of excess water from 37 dams across the state of Kerala.

The Government of Kerala and Kerala State Disaster Management Authority (KSDMA) with technical support from UN organizations has brought out PDNA (Post Disaster Need Assessment) Report, October 2018. According to the government, 1259 villages across 14 districts were affected and the Government has declared 7 districts worst affected. The devastating floods and 341 landslides affected 5.4 million people statewide and displaced around 1.4 million people and took the lives of 433 persons and property damage estimated to around INR 10,557 crore and total losses around INR 16,163 crore amounting to a total disaster effects of around INR 26,720 (USD 3.8 Billion). The total recovery needs were estimated at INR 31,000 crore (USD 4.4 Billion) including the recovery needs estimated by the Joint Rapid Damage and Need Assessment (JRDNA) conducted by the World Bank and the Asian Development Bank (ADB). The share of estimated total disaster effects among the main sector of social and economic activity reveals that the most affected are the infrastructure sector (38% of the total effects), which

includes transportation, water, sanitation & hygiene along with power, irrigation and other infrastructure sectors followed by the cross-cutting sectors (27%). Social sector (18%) and productive sector (17%). PDNA report highlights that the flood and landslides have affected women & girls, Persons with Disabilities, elderly population, transgender persons, migrant workers, fisherfolk, scheduled tribe and scheduled caste population disproportionately.

Based on the priority sectors mentioned in the PDNA report 2018, UNDP is providing financial and technical support to the government of Kerala for building resilience and capacities of the communities and institutions to manage natural as well as human induced disasters at local level with the prime objectives to bring down the cause and effects and casualties of disasters in future. Initially FDA has entered into contract with UNDP for implementing Community Based Disaster Risk Management Programme in most vulnerable 28 Grampanchayats across the 14 districts of Kerala state, however based on the suggestion of Kerala State Disaster Management Authority (KSDMA), the MoU was amended to implement School Safety Programme in 28 High Schools (Govt and Govt Aided Schools) across 14 districts of Kerala.

## 2. SELECTION OF IMPLEMENTING NGO BY UNDP

UNDP has called for ‘REQUEST FOR PROPOSAL (RFP) under their National Open Bidding, date June 24<sup>th</sup> 2019 having reference no. RFP/043/IND-2019 inviting submission of proposal for implementing “**Community Based Disaster Risk Reduction (CBDRR) Programme**” under the Kerala Flood Recovery Programme of UNDP. FDA had participated in the National Open Bidding and had qualified the criteria set by United Nations Development Programme (UNDP). Thus, Foundation for Development Action (FDA) was selected by UNDP India to execute the project in the entire 14 districts of Kerala.

## 3. SIGNING OF MOU

The partner NGO – FDA has signed two “Contracts for Service” with UNDP. The first Contract was signed on 19-July-2019 to implement Community Based Disaster Risk Management Programme in 28 LSG’s, which was later dropped by Kerala State Disaster Management Authority (KSDMA) and the amended Contract was signed on 31<sup>st</sup> Day of October, 2019 to implement School Safety Programme.

## 4. DURATION OF THE PROJECT

Duration for implementing Community Based Disaster Risk Management Programme (CBDRM) was for a period of five months starting from July 19<sup>th</sup> to December 18<sup>th</sup>. Whereas the duration for implementing School Safety Programme (SSP) was for a period of three months, starting from October 2019 to December 2019.

## 5. TECHNICAL AND MONITORING SUPPORT

Technical and monitoring support to implement School Safety Programme across Kerala were provided by Kerala State Disaster Management Authority (KSDMA) and respective District Disaster Management Authorities.

## 6. PROJECT LOCATION OF SCHOOL SAFETY PROGRAMME

From each district 2 most vulnerable high schools (government and government aided schools) were selected for implementing SSP. Hence from 14 districts a total of 28 high schools were selected. The selection of the schools was done by Kerala State Disaster Management Authority (KSDMA) using multi-hazard index/matrix and the list of the schools were officially shared with the Directorate of General Education, Government of Kerala for approval. List of the schools with name of districts and LSG’s are mentioned in the table below.

## 24. INCEPTION WORKSHOPS

### • CBDRM INCEPTION WORKSHOP

On 29<sup>th</sup> of August 2019, Kerala State Disaster Management Authority and UNDP has jointly organized an Inception Workshop of UNDP funded Community Based Disaster Risk Management (CBDRM) Programme at Trivandrum Social Service Society, Vellayambalam Thiruvananthapuram. 16 persons participated in the Inception Workshop which includes; experts from State Disaster Management Authority, UNDP, SPHERE INDIA and CBDRM team of the implementing NGO – Foundation for Development Action (FDA) participated. The workshop began at 2:00 PM with a welcome speech delivered by Ms. Divya Chandran U (Community Mobiliser – Thiruvananthapuram), followed by opening remarks of Ms Annie George, State Coordinator, UNDP, Kerala. Mr Joe John George, State Project Officer, UNDP explained about the Institutional arrangements for implementing UNDP aided CBDRM Project. Ms. Sibi A, Vice President of FDA presented organization profile of FDA. Finally, Mr. Ramesh Krishnan, Executive Director presented a detail of the approved activities of the CBDRM Project, plan of action, concerns of the project and introduced the newly recruited project staffs before the KSDMA-UNDP team. The programme ended at 4.30 PM. *Detail inception report of CBDMR was submitted to UNDP on 1-September-2019*

### • SSP INCEPTION WORKSHOP

Inception workshop of UNDP supported School Safety Programme was held on the 22<sup>nd</sup> of Oct, 2019 at the office of Kerala State Disaster Management Authority, Thiruvananthapuram. The inception workshop was attended by 19 persons represented by UNDP, UNICEF, SPHERE India, KSDMA and project and management staffs of the implementing organization– Foundation for Development Action (FDA). *Detail inception report was submitted to UNDP on 1-Nov.2019.*

## 25. RAPPORT BUILDING

Field level execution of the activities of school safety programme started soon after the inception workshop. First 7-10 days were utilized for building rapport with various departments and stakeholders who are likely to be involved in the project. The department / agencies visited include; District Disaster Management Authority, Village Office; selected 28 schools; local body administration (Grampanchayat, Municipal Corporation and Municipality); Kerala Fire and Rescue Services; local police stations; Deputy Director of Education and Primary Health Center/Health department. The purpose of the visit was to introduce the project to the stakeholders and share the objectives of the project, activities, deliverables and stakeholder involvement in the project.

## 26. FORMED SCHOOL DISASTER MANAGEMENT COMMITTEE IN 28 SCHOOLS

First activity implemented at school is the formation of School Disaster Management Committee (SDMC) headed by the Headmistress/master of the high school. SDMC is formed in all the 28 selected High School with a total number of 377 persons. The number SDMC members varies from school to school based on the suggestions of the concerned school. In some school it is 07 members, whereas in some school it is 21. In the SDMC formation meeting, the Community Mobilizers (CM's) of the implementation NGO – Foundation for Development Action (FDA) provided detail descriptions of the UNDP supported School Safety Programme, relevance of the School Safety Programme in the present context, its approved activities, deliverables of the project and stakeholder involvements at various stages of the project implementation. They said for effective implementation of the School Safety Programme, a School Disaster Management Committee (SDMC) headed by the Headmistress/master shall be constituted for carrying forward the activities of the project. The roles and responsibilities and composition of the SDMC were also shared with the meeting participants and thus the committees were officially formed in all the 28 selected high schools. Below mentioned are the detail of SDMC's.

## 27. FORMED SCHOOL-EMERGENCY RESPONSE TEAM (S-ERT) IN 28 SCHOOLS

School Emergency Response Team (S-ERT) of Basic Life Support is formed in all the 28 schools with a total of 333 members. The purpose of forming School-Emergency Response Team is to equip the school with trained hands to attend to medical emergencies and provide first aid to the injured. Meeting was called by the chairperson on the respective School Disaster Management Committee to discuss the need, importance and scope of constituting S-ERT. In the meeting the Community Mobilisers of the supporting NGO – Foundation for Development Action (FDA), re-introduced the UNDP supported School Safety. In the meeting, the roles and responsibilities of members of S-ERT's was discussed in detail. In meeting it was informed that the members of S-ERT will be trained in first aid skills by and expert training institute – Indian Institute of Emergency Medical Sciences, Kottayam. IIEMS is a training provider affiliated to American Heart Association (AHA) and have vast experience of providing Basic and Advanced Life Support training to a number of stakeholders from government to private sectors.

## **28. ORIENTATION TO STUDENTS ON BASICS OF DISASTER MANAGEMENT AND SCHOOL SAFETY**

Orientation on Basics of Disaster Management including awareness on school safety was provided in all the 28 schools. A total of 1409 persons (students and teachers) has attended the awareness generation programme. The input sessions were facilitated by the Hazard Analyst of DDMA, UNDP District Project Officers and by the Community Mobilisers of Foundation for Development Action (FDA). The first part of the awareness programme focused on primarily on Disaster Management and topics covered includes; definition of disaster and pictorial description of hazard, vulnerability and disasters for easy understanding of the students. Images and video of various hazards, history of disasters of Kerala, types of disasters (natural and anthropological), Disaster Management Cycle, impact of disasters, DM institutions at central (NDMA), state (SDMA) and district (DDMA), discussion on vulnerable population, DO's and DONT's of various hazards (Cyclone, Earthquake, Flood, Fire, Landslide, Drought, Heat Waves, Lighting and Tsunami) and importance of family emergency kit. The second part of the presentation was on School Safety. Following are the points covered in the presentation; 1) what is a safe school, 2) school related disasters occurred in Kerala and other parts of India, 3) general principles of school safety, 4) importance of capacity building training programmes including mock drills and 5) Knowledge materials developed by KSDMA for building awareness among school children were also shown to the students which includes- hazard hunt, snake and ladder games on earthquakes. The children were shown images of various campaign programme on water conservation, IEC on earthquake, lighting, fire, drought and flood.

## 29. TRAINING ON BASIC LIFE SUPPORT (BLS) TO MEMBERS OF SCHOOL EMERGENCY RESPONSE TEAM AND STUDENTS

Foundation for Development Action (FDA) has hired Indian Institute of Emergency Medical Sciences (IIEMS) based at Kottayam as the training provider of BLS. IIEMS (<http://iiems.org>) is an expert training institute affiliated to American Health Association and has provided BLS training to various beneficiaries under project supported by GoK. School Emergency Response Team (S-ERT) is formed in all the 28 high schools and training on BLS were also completed in all the 28 schools. A total of 1,499 person (teaching and non-teaching staffs: 308 and students: 1191) were trained. The content of the training programme is based on the training module/handbook

prepared by IIEMS and vetted by KSDMA. The major content of the BLS were CPR (Cardio Pulmonary Resuscitation) since it is the most important one that can be helpful in many situations. The trainer explained each step of administering CPR (adult and infant). Sets of Manikin were used by the trainers to provide practical hands on training to all the trainees. The trainees were divided into groups and were trained under the supervision of an instructor. The major emergency or life-threatening situation in the life were discussed during the sessions were;

Cardiac arrest, Heart attack, Poisoning, Snake Bite, road accidents, amputation, burns, epilepsy, fainting etc. The master trainer and the co-trainer covered all the topics mentioned in the Handbook on First Aid Skills and explained each skill through demonstration as well with the help video presentation and equipments. The training session were effective and all the S-ERT members and students actively participated throughout the session. A feedback session was held towards the end of the training programme where doubts raised by the trainees were cured by the master trainers. Detail of BLS training programme conducted in all the 28 schools are mentioned in the table below.

### 30. PARTICIPATORY HAZARD HUNT AT SCHOOL

Participatory Hazard Hunt Exercise (HHE) was organized at all the 28-project implementing high schools from 11-Nov-2019 to 2-Dec-2019 and was participated by a total of 749 student volunteers who were selected by the school authorities including few interested teachers. The Community Mobiliser of the School Safety project facilitated the session on Hazard Hunt. They explained the meaning and scope of Hazard Hunt in school settings and how it can be done in a participatory manner. Terminologies like hazard, vulnerability and falling hazards with pictorial representation were explained to the student volunteers so that they can internalize the concept of HHE. The Hazard Hunt assessment sheet was distributed to all the students and risk indicators mentioned in the assessment sheet were explained to the student volunteers in depth. The student volunteers were divided into groups and building blocks were allotted to them to undertake HH Exercise in an hour time.

Each group were issued around 50 HHE assessment sheets and directions were given to inspect each and every rooms of school buildings and check out the risk indicators mentioned in the HH assessment sheet. The student groups were then dispersed to the undertake HHE and had inspected all the classrooms, laboratories and office rooms in the campus and recorded their observations in the assessment sheets. Risk factors like hanging and falling objects, lighting fixers, exits, corridors, staircases, parapet, pressure level of fire extinguishers, place of keeping cooking gas cylinders etc. were checked by the student groups and recorded in the data sheets. The data sheets were collected back from the students for data consolidation, analysis and preparation of assessment report.

Few of the observations and comments are as follows.

- School compound is at a land slide prone area with no protection wall.
- Presence of a single exit in the high school buildings might be critical during emergency and may cause stampede.
- The School play-ground is under construction and may leads to accidents and injuries.
- Open wells don't have grill to cover and is not proper locked.
- Electric cables are hanging in the class rooms.
- The place of storing cooking LPG cylinder is in unsafe/near to kitchen.
- In chemistry lab, acid is stored/kept in unsafe cupboard.
- Vulnerable trees near to school building and playground are posing threat to children. It needs to be pruned and maintained on yearly basis.
- File cabinets, trophies and photo frame in HM's office may fall during ground shaking/earthquake.
- The narrow IT lab with numbers of tables and computers may leads to the increase of hazards.
- Bushes around the school may leads to snake bite and other wild animals attack.
- Lack of fire extinguisher in the school premises.

- Broken window classes may cause serious injuries.
- Drainage systems are not covered, children may fall and cause injurie.

The table below shows the date of Hazard Hunt Exercises that were conducted at 28 schools with number of participants.

### 31. PARTICIPATORY MAPPING EXERCISE AT SCHOOL

Participatory Mapping Exercises is completed in all the 28 schools. The exercise was participated by a total of 525 students and teachers. The mapping session were facilitated by the Community Mobilisers of the School Safety Programme where in they explained the students about hazard map, resource map and evacuation map and how it can be prepared. To make the concept clearer model maps were shown to the students which were prepared by the implementing NGO – FDA under various other school safety projects. PLA tool was used to prepare school maps. Chart papers and tools (pencil and sketch pens) for preparing the maps were distributed to the student groups. The student volunteers were divided into different groups and each group were allotted a building to prepare the maps. Since mapping is an action oriented programme, all the students actively participated in the event by making it a joyful learning experience.

Students who have artistic talents were made leader of the group and were entrusted with the responsibility to come out with resource-hazard-evacuation maps. The activity provided them an insight to see and understand the hazard, vulnerability factors

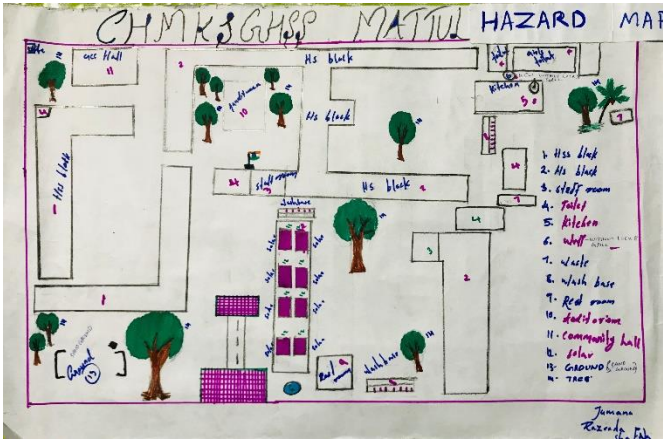

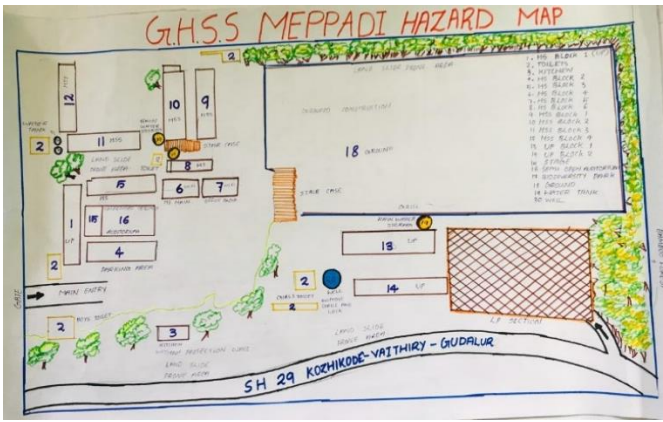

and the resources available in the school and in the nearby vicinity. In some schools the maps were drawn on the

floor and then it was depicted on chart papers, whereas in some schools the maps were drawn on the blackboard and, in some schools, it was drawn directly on chart papers. The students cross checked and drawn all the hazard components observed in the campus which were identified by them through hazard hunt exercise. Likewise, the student groups has also prepared Resource and Evacuation maps of their respective schools. Below mentioned is the list of schools with dates and number of participants.

### 32. FIRE MOCK DRILL AND DEMONSTRATION

Fire Mock Drills and Demonstrations were conducted in all the 28 schools with a total number of 9887 participants which includes both teaching, non-teaching and students. The event was organized with active support from the department/agencies like; Kerala Fire and Rescue Services, Kerala Police and Health. The partner NGO- FDA prepared a 60 minutes mock drill sequence in (Malayalam) narrating the entire show and roles and responsibilities of various stakeholders like; school authority (the Principal, School DM Coordinator, Security Staff, Teachers,

Non-teaching staffs and Students), Kerala Police, Kerala Fire and Rescue Services and Health Department. A drill orientation meeting was organized a day before the day of actual fire mock drill, in which the Community Mobiliser of the School Safety Programme detailed step by step processes for conducting the 60 minutes fire drill. Copies of the drill sequence were distributed to the participating department.

At a prefixed time, a long bell rang, followed by children shouting Fire-Fire-Fire, the School DM Coordinator/responsible teacher called the School HM (Incident Commander) and informed about the fire disaster occurred at a school building, the IC then called the Kerala Fire and Rescue Services, Kerala Police and to the nearest government hospital and informed them about the fire incident. This was followed by mass evacuation by students, teaching and non-teaching staffs to a safer place (open ground). By this time rescuers from Kerala Fire and Rescue Services reached the school campus and IC briefed them and there after they started the rescue operation by rescuing 07 (seven) students who were trapped in various class rooms of the school building. The School Emergency Response Team (S-ERT) who were trained in BLS opened at small medical corner near to the open ground and provided first aid to the rescued victims. This was followed by the entry of health department who took over the medical corner from the S-ERT and continued providing first aid to the victims. A scene of medical evacuation was also demonstrated. After the drill is completed, Kerala Fire and Rescue Service arranged a demonstration on how to douse/control fire in a building and ended the demonstration by sprinkling water up in the air in circular motion. An evaluation meeting was organized which was participated by all the drill participants.

### 33. DEVELOPMENT OF SCHOOL DISASTER MANAGEMENT PLAN DOCUMENT IN MALAYALAM

School Disaster Management Plan documents of all the 28 schools is prepared in Malayalam. Initially one model SDMP was prepared and submitted to Kerala State Disaster Management Authority for comments and feedbacks and it was finalized and shared with all the Community Mobilisers to prepare SDMP's of the schools they are allotted. SDMP's of all the 28 schools have been prepared. E-copies of 28 School DM Plans is attached herewith this project completion report.

### DEVELOPMENT OF KNOWLEDGE MATERIALS

#### 34. DEVELOPMENT OF COURSE MATERIAL (HANDBOOK ON FIRST AID SKILLS)

Handbook on 11 FIRST AID SKILLS in Malayalam language was prepared and distributed to all the members of the School-Emergency Response Team (S-ERT). The technical content of the handbook on FIRT AID was developed by the training provider/institute - Indian Institute of Emergency Medical Sciences (IIEMS) Kottayam and it was vetted by the technical experts (health) of Kerala State Disaster Management Authority (KSDMA). The handbook contains the following 11 first aid skills- 1) Cardiac Arrest, 2) Chocking, 3) Bleeding, 4) Poisoning, 5) Bees and Insect Biting, 6) Snake Bite, 7) Burn, 8) Electric Shock, 9) Seizures, 10) Drowsiness and 11) Bone Injuries. The cartoon images in the handbook will make the children read it with joy and thus will help to build their capacity in first aid and will also empower them on the importance of medial first aid during emergencies. *(e-copy of the handbook on 11 fist aid skills is already shared with UNDP)*

#### 35. DEVELOPMENT OF SCHOOL DISASTER MANAGEMENT PLAN TEMPLATE AND GUIDANCE NOTE IN MALAYALAM

Kerala State Disaster Management Authority has Template on School Disaster Management Plan (SDMP). The template was reviewed by the implementation NGO – FDA and was updated with necessary changes and was made it final. The final draft was then submitted to KSDMA and it was introduced to the community Mobilisers in the inception workshop held on 22-Nov-2019. A guidance note is also prepared for helping the school authorities to prepare/update their School Disaster Management Plan. *(e-copy of the SDMP template and Guidance Note is already shared with UNDP)*

#### 36. DEVELOPMENT OF LSG DISASTER MANAGEMENT TEMPLATE

Template for preparing Disaster Management of Local Self body was developed and submitted to Kerala State Disaster Management Authority, which was shared with Kerala Institute of Local Administration (KILA) in a workshop held at KSDMA and the template is now been finalized. *(E-copy of the DM template is already shared with KSDMA & UNDP).*

The partner NGO – Foundation for Development Action (FDA) in a period of two and half months has succeeded in completing the entire activities of the School Safety Programme which was implemented at 28 high schools across the state of Kerala. Achievements in bullet forms is mentioned in the table below.

### TRAINING ON BASIC LIFE SUPPORT (FIRST AID) TO MEMBERS OF SCHOOL EMERGENCY RESPONSE TEAM AND STUDENTS – Detailed Report

#### Introduction

Foundation for Development Action (FDA) has hired Indian Institute of Emergency Medical Sciences (IIEMS) based at Kottayam as the training provider of BLS. IIEMS (<http://iiems.org>) is an expert training institute affiliated to American Health Association and has provided BLS training to various beneficiaries under project supported by GoK. School Emergency Response Teams (S-ERT/s) were formed in all the 28 high schools under UNDP supported SSP and training were given to the members of S-ERT including students of all these 28 schools. A total of 1499 persons attended the BLS training programme of which 308 were teaching/non-teaching staffs and 1191 were students.

The content of the training programme is based on the training module/handbook prepared by IIEMS and vetted by KSDMA. The major content of the BLS were CPR (Cardio Pulmonary Resuscitation) since it is the most important one that can be helpful in many situations. The trainer explained each step of administering CPR (adult and infant). Sets of Manikin were used by the trainers to provide practical hands on training to all the trainees. The trainees were divided into groups and were trained under the supervision of an instructor. The major emergency or life-threatening situation in the life were discussed during the sessions were; Cardiac arrest, Heart attack, Poisoning, Snake Bite, road accidents, amputation, burns, epilepsy, fainting etc. The master trainer and the co-trainer covered all the topics mentioned in the Handbook on First Aid Skills and explained each skill through demonstration as well with the help video presentation and equipments. The training session were effective and all the S-ERT

members and students actively participated throughout the session. A feedback session was held towards the end of the training programme where doubts raised by the trainees were cured by the master trainers.

The BLS training programmes was facilitated by the following 21 instructors of IEMS, Kottayam. The number of instructors were increased, so as to finish the entire training programmes on time.
