## Report

As part of the Comprehensive School Safety programme under KSDMA- UNICEF partnership, it was decided to conduct regional training programmes on School Safety at the district level. A total of 200 schools in 14 districts have been selected for the training programmes based on the multi hazard zones and 2018 flood affected area.

The regional training program on school safety program for the Palakkad and Thrissur districts was conducted on Saturday, the 8th of February 2020 in the Govt. Polytechnic College, Shoranur, Palakkad district. The DEOs and AEOs of the two districts participated in the training apart from the Headmaster or the representative from each school with a total participation of 76 persons out of which 46 were teachers in charge or head teachers of schools. DDE Palakkad Mr. Krishnan P and DDE Thrissur Mrs. Geetha N attended the training and delivered felicitations.

Dr.K B Valsalakumari IAS (Retd.), Consultant, DRR, UNICEF and Mr.Praveen S, District Project Coordinator, Sphere India had facilitated the workshop. The program started with an introduction to the Basics of Disaster Management by Mr. Praveen after an icebreaking session where participants could lay down their point of view and also understand the institutional mechanism of DM in India.

Later on Dr.Valsalakumari gave a detailed understating about the Comprehensive School Safety and the role of the participants in building resilience and capacity towards Disasters. The afternoon sessions were concentrated on the review of School DM plan templates, Group Discussions, evacuation plans among the schools and follow up mechanisms.

The training had two interactive sessions in which the participants were divided into 8 groups and each group was asked to list out issues and components related to school safety and multiple hazards. This was followed by another exercise wherein each group was given the map of a school with the building plan and they were asked to draw the evacuation route. Two members from each group presented their findings followed by a discussion.

The participants were then asked to write down their evaluation of the workshop. Majority of the participants said the training yielded a great amount of information on DM and School safety and also the importance of a sound School Safety Plan in each school. The unanimous opinion was that the more workshops of the same kind with more number of days at school level should be conducted. As part of this training programmes a booklet on school safety, template for school safety plan and a cloth bag were provided to the participants.
